Education

UPES Dehradun

Master of Computer Applications (CGPA: 8.7)

August 2022 - June 2024

Uttarakhand, India

Uttaranchal University

Bachelor of Computer Applications (CGPA: 8.6)

August 2018 – June 2021

Uttarakhand, India

Experience

TalentGPT

OCT 2025 – Present

Founding Engineer

Remote

- Built a **job portal SaaS platform** enabling recruiters to manage job postings, candidates, and hiring workflows end-to-end.
- Designed and developed scalable backend services using **Node.js, Express, and MongoDB**, implementing APIs for job listings, applications, and user management.
- Implemented **advanced candidate filtering and search** (ATS-style scoring, pagination, and query optimization) to improve recruiter efficiency.
- Developed responsive frontend using **React + TanStack Router/Query**, ensuring smooth data fetching and real-time UI updates.
- Integrated **authentication, role-based access, and organization-level permissions** for multi-tenant SaaS architecture.
- Optimized performance with server-side pagination and efficient database queries, reducing load times and improving user experience.

Phemesoft (IBM Mentorship)

JAN 2024 – APR 2024

Project Intern

Remote

- Developed Machine Learning based project under IBM mentorship.
- Implemented k-means clustering to personalize songs, improving recommendation accuracy by 25%.
- Utilized Python, scikit-learn, and TensorFlow for machine learning.

Closetnerds

FEB 2023 – MAY 2023

Frontend Developer Intern

Remote

- Crafted responsive webpages with ReactJS reducing page load times and elevating user engagement.
- Collaborated with the design team to implement impactful UI/UX improvements, increasing website usability.
- Assisted in debugging and troubleshooting website issues.
- Played a key role in debugging and troubleshooting website issues, contributing to a 15% decrease in website downtime.

OPPO

MAR 2023 – JUN 2023

Content Writer Intern

Remote

- Produced compelling content focused on the gaming community and diverse mobile games in the Indian market, resulting in a 15% increase in audience engagement
- Conducted research and analysis to deliver informative and accurate content, meeting readers' needs with a 20% improvement in content relevance

Projects

JS Journal | *ReactJS, esbuild, redux* | [GitHub](#)

- JavaScript prototyping code editor leveraging Monaco Editor for a feature-rich, browser-based editing experience.
- Employs esbuild for rapid JavaScript bundling and transpiling, ensuring efficient development workflows.
- Utilizes Redux for managing application state, providing predictability and simplified testing.
- Easily initializes the notebook with "npx js-berry-journal serve" in the terminal.

Organic e-commerce | *ReactJs, Zustand, NodeJS, ExpressJs, mongoDB* | [URL](#) | [GitHub](#)

- Developed a full-stack e-commerce website for organic products using React.js, Zustand, Node.js, Express.js, and MongoDB
- Designed and implemented a responsive and intuitive UI using React.js and Shadcn.
- Integrated Zustand for state management to maintain and manage the product state effectively
- Developed a robust backend with Node.js and Express.js, handling user authentication, product listings, and cart functionality

Travel Website | *Bootstrap, Firebase* | [URL](#) | [GitHub](#)

- Designed and built a user-friendly travel website using Bootstrap to ensure responsiveness across all devices.

- Integrated Firebase Authentication to manage user sign-ups, logins, and secure access to personalized features.
- Utilized Firebase Firestore for real-time database management, storing and retrieving user data and travel itineraries efficiently.

Realtime Chat App | *ReactJS, NodeJS, ExpressJS, mongoDB*, | [URL](#) | [GitHub](#)

- WebSocket for real-time communication, ensuring instant message delivery and updates.
- Dynamic user interface providing users with a responsive and interactive chat experience
- Utilized Firebase for real-time data storage and synchronization.
- Utilize Node.js and Express to build user authentication & efficient message routing
- Group chat functionality allowing multiple users to communicate simultaneously

Bird song Life | *Shopify, Dawn Theme, Liquid* | [URL](#)

- Implemented efficient page designs and integrated Liquid templates for dynamic content.
- Customized the Dawn theme to align with brand aesthetics and functionality requirements.
- Utilized Shopify's built-in tools and apps to streamline e-commerce operations.

Esme Luxury | *Shopify, Dawn Theme, Liquid* | [URL](#)

- Designed and implemented custom sections using Liquid, HTML, and CSS to showcase luxury products.
- Optimized the storefront for responsiveness and user engagement.
- Collaborated on integrating third-party apps to improve functionality and streamline processes.

Extra - curricular

Student Developer

2022 – 2023.

- Core member of the website team.
- Developed the website for the Dehashed event organized by UPES-OPEN and WEBCRUX.
URL: <https://dehashed.in/>
- Worked on developing the front-end of the UPES-OPENS's website.
URL: <https://upes-open.org/>

Achievements

- Certification for completion of the React and Typescript Course by Stephen Grider on Udemy on February 2024.
- Certification for completion of the course, React - The Complete Guide by Academind on Udemy on January 26, 2023.
- Certification for completion of the course, the complete JavaScript course around 70 hours on Udemy on January 15, 2021.
- Certification for completion of HTML, CSS, and JavaScript for Developers Course on Coursera on December 2020.
- Actively contributed and was awarded a badge in the Hacktoberfest 2022.
- Certificate of excellence for being the best performer of the Website Team of OPEN Community (2022 - 23).
- Holder of a Hacker Rank Gold Badge in SQL, demonstrating strong database query and data manipulation skills
